
Goat Anti-Guinea Pig IgG (H+L) Antibody, HRP

Catalog Number: YFSA07; Size: 100 μ L

Background:

This Goat Anti-Guinea Pig IgG (H+L) Antibody HRP conjugated was tested in the WB, IHC-P and ELISA applications. The HRP conjugated IgG was purified from antisera by immunoaffinity chromatography using antigens coupled to agarose beads. This Goat Anti-Guinea Pig IgG(H+L) Antibody HRP conjugated can be directed against the whole molecule of the primary antibody as a secondary antibody.

Product Information:

Tested applications: WB, IHC-P, ELISA

Dilution Ratio: WB: 1:10000-1:100000; IHC: 1:500-1:2000; ELISA: 1:5000-1:100000

Species reactivity: Guinea Pig

Host Species: Goat

Conjugation: HRP

Isotype: IgG

Form: Liquid

Purification: Affinity purification

Buffer System: Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide, pH 7.3.

Storage: Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

Services & Support:

- 1、Please do not hesitate to contact us if you have any questions.
 - 2、Please fill in the Technical Support Request Form and email the form to support@yfxbio.com within 3months of receipt of the goods, and we will response to your inquiry within 24 hours.
 - 3、The after-sale service channel will be shut down after 3 months.
 - 4、Product has not been fully validated for medical applications. For research use only.
